

# DOMAIN FORWARDING TO FMP WEB STORE

You can forward your existing domain to the web store, which you created in fabby marketplace. Then people can see your fabby marketplace web store whenever they browse your own domain name.

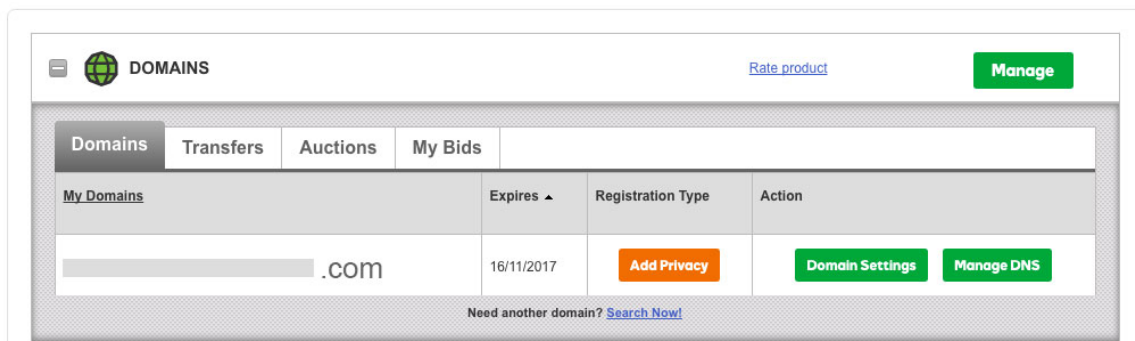

You can simply forward your domain by doing the following steps:

## 1. Login to your hosting website account

Go to your account and click on “Domain”. You will see your all domains and select the domain name, which you wish to forward.

## 2. Click on “Manage DNS”

Click on “Manage DNS” option from that selected domain name.

## 3. Fill url of your web store

Fill the url of your own web store in that text field.

Select “Forward with masking” option and click on “Save”

## Forwarding
